For Immediate Release

Gaithersburg Police Participate in National Prescription Drug Take-Back Day

Gaithersburg, MD – (October 11, 2021) On Saturday, October 23, 2021, the Gaithersburg Police Department will give residents an opportunity to prevent prescription drug abuse and theft by ridding their homes of potentially dangerous expired, unused and unwanted prescription drugs. Bring your unused medications for disposal to the [Gaithersburg Police Station](#), located at 14 Fulks Corner Avenue, between 10 a.m. and 2 p.m. on October 23. No liquids or syringes will be accepted. The service is free, anonymous, and there will be no questions asked. In addition, a [Prescription Drop Box](#) is available in the Gaithersburg Police Department lobby.

The Drug Take-Back initiative addresses a vital public safety and public health issue. Medicines that languish in home cabinets are highly susceptible to diversion, misuse and abuse. Rates of prescription drug abuse in the U.S. are alarmingly high, as are the number of accidental poisonings and overdoses due to these drugs. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from the home medicine cabinet. The situation has been made even worse by the continuing public health crisis. In addition, disposing of unused medicines by flushing them down the toilet or throwing them in the trash pose potential safety and health hazards to our water supply.

Do you or someone you know suffer from substance use disorder? The City encourages residents to reach out for assistance. Download our Mental Health Resources flyer in English [here](#) and in Spanish [here](#). For community support resources during the COVID-19 pandemic click [here](#).
